New York, Oct. 29. The mystery which has so long enve poed the Inte of the body of the millionare, Alexander T. Stewart, forms the subject of a chapter in Superintendent Walling's book, "The Hecolections of a New York Chief of Police," which will soon be published. The experiotendent professes to give the only true story of the stealing of the body of Mr. A. T. Stewart and also alleges that the body was subsequently returned to the representative, Judge Hilton. The Superiodendent details at gight length the correspondence between Mrs. Stewart, Judge Hilton and others with the robbers, who carried the body to Chrisda. Overtures filled repeatedly, the glouds domanding at first a quarter of a mill op of dollars, the \$200,000 and then \$100 by. At last Mrs. Stewart took the case carnestly in hand but against the advice of Judge Hilton.

CONSUMPTION CURABLE.

Since the fact that consumption is both of preventable, and in its earliest stage curable, it has lost much of its terror. If the first symptoms are at once recognized, and the proper remedy applied, very few if any one, need die of consumption, which is really lung-scrofula. Like many other diseases this formidable one grows out of impure blood, and this, in turn, from a diseased liver. Hence, we have the hacking cough, the pains in chest, the inflamed lungs, and all the symptoms of hastening consumption, all the result of deprayed blood, and a diseased liver. The use of Dr. Pierce's Golden Medical Discovery will arrest all such symptoms, restore the liver to healthy action, and send streams of pure blooc into every organ. Of druggists. > hardly seemed to be occasion for him to speak after the able report of Secretary Brunswick Railroad, arrived in this city Jordan which covered the workings of the Association, but he would try to say a few words. The question is raised, "Does the Association pay, and why will not the limiddle aged men do for young men?" Young men are the most important part of society and they are subjected to most peculiar temptation. The enthusiasm, muscle, nerve, and all the measures which move society are in the young men and their excessive hopefulness and recklessness are often of advantage in a world pered by the wisdom of middle life. The will force and push are concerned men are gonducted by Rev. W. S. Studley, of undoubtedly ahead of women, but in the bilities women have the great advantage. overcome them. The nature of woman leads her to put herself under the influence Rich, Charles B. Butterfield and Dr. Horof the church and she may be found lead- ace D. Arnold, ushers. ing in all religious and charitable matters.

The speaker said that nothing more depressed him than to see the young lad, who, unaccustomed to go to church, as he grew up going less and less and finally hardly recognizing his pastor. The Young Men's Christian Association furnishes a safeguard against the temptations which beset the young men. It is deplorable how many of our brightest and most amaible young men are dragged down to a premature grave by giving way to these to participate in the unrivalled fishing and temptations which may be found almost without seeking. The pleasures of the saloon to the young man were set forth in contrast with the dismal surroundings in many cases, of his boarding house. Is it not right that there should be at least one room in this city pleasantly named, with its books, papers, music and frequent lectures where the young men may come as often as they please and enjoy the intellectual, social, and religious pleasures This is one thing that the Young Men's

there contained. Christian Association is doing, maintaining such a room, and the time will come when the Association will have at its command as fine a building as any in the city. But even now in taking a look at the rooms now occupied one cannot help being struck with the pleasant and profitable entertainment there offered for young men. The Association is now in its infancy and will grow. He who gives for the institution Penobscot County Educational Association to-day, gives to one which is not to remain will be held at the Town Hall, Hampden, as small as at present or to deteriorate, but on next Friday and Saturday. There is no more is more blessed to give than to receive. The words of the speaker were closely listened to and frequent applause followed his eloquent and happy remarks.

Mr. C. S. Pearl, Chairman of the Finance Committee, made a few remarks stating hat he would simply point to the Y. M. C. A. as a beacon light warning from the Juleksands of sin, and asked if its results were not worthy of the continued support once for the offerings which might be During the passing about of these cards by the ushers the Apollo Quartette very finely and with much expression sang, "Where is my Wandering Boy Toright," the solo being sung by Mr. Ray. President Barrows said he would like to express to the audience his appreciation of the support given in former years to the Y. M. C. A. and that of this year as the contribution slips indicated, and in-vited all to come to the rooms. He also thanked the audience for its attendance. Duck bunting out of seasor has been carried on to a great extent in Chesapeake Bay. They have been caught with a patent net which is used by the sum ner and fall flahermen in catching large rock, perch and other fish. These nets are laid out or suchored below the surface of the water, and it was discovered that learly in fall, ducks that fed, on the shallow parts of the flats would become entangled in these nets and be easily captured. This was not considered a violation of the law, as no guns were used, and as light as one thousand, ducks have been larged in a single aight and shaped, away in elect as fight.
